

Avro Rivet Guns

Wolf Pack” Extra-Force”

The Avro “**WOLFPACK**” series of riveting hammers feature a revolutionary Tungsten piston design that delivers far more power and assists in absorbing vibration, allowing the operator to choose a smaller and lighter tool for the same application.

The “**ERGONOMIC**” housing is designed for maximum operator comfort and the “**ERGO GRIP**” which acts as a thermal protector and helps isolate vibration, are both standards in these tools. A spool valve system delivers slow, heavy blows necessary to drive rivets. An extremely sensitive teasing throttle permits precise control.

Model Number		Capacity	Blows	Bore	Stroke	Length	Weight
		Alum / Steel	Minute	Inch / mm	Inch / mm	Inch / mm	lbs / kg
10225	2X	3/16” / 1/8”	2580	9/16”/14.3	2-1/4/ 57.2	6-11/16/170	2.60 / 1.18
10335	3X	1/4” / 3/16”	2160	9/16”/14.3	2-7/8/ 73.0	7-5/16 / 185	2.85 / 1.29
10445	4X	5/16” / 1/4”	1740	9/16”/14.3	3-1/16 /77.5	8-5/16 / 211	3.10 / 1.40

General:

- Air Inlet: 1/4” NPT Standard
- Air pressure: 90 psi (620 kpa).
- Shank Diameter .401”
